Creating a Copy of Table, Fit Plot, Folder or Figure 1
What Data are Plotted on the Copied Fit Plots and Figures 1

Creating a Copy of Table, Fit Plot, Folder or Figure

You can create a full copy of selected project components (Tables, Fit Plots, Folders, Figures) by selecting `Create a Copy` item on context menu.

What Data are Plotted on the Copied Fit Plots and Figures

If the only Fit Plots and Figures are selected for creating a copy, the created Fit Plots and Figures will use data from the same tables and columns as initial ones. If you select also the Tables which contain plotted data, then the created Fit Plots and Figures will use data from created copies of these Tables.
