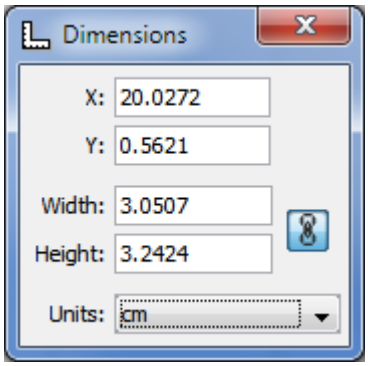
Table of Contents

Dimensions Toolbar 1

Dimensions Toolbar

This toolbar is intended for accurate setting the position and size of selected drawn objects on Figure or Plot.

You can open Dimensions toolbar by selecting `View-Dimensions Toolbar` in main menu. Dimensions toolbar may be left opened.



Dimensions toolbar shows the coordinates and size of current selected object(s). You can also specify the coordinates or size of multiple components.

- The x value is measured from the left edge of the canvas.
- The y value is measured from the top edge of the canvas.
- For rectangle or ellipse the specified coordinates determine the position of the upper-left corner.
- For text label the specified coordinates are:
  - x determines the left edge, center or right edge of text accordingly to text alignment of label.
  - y determines the baseline position of the first line.
- For line or arrow the specified coordinates determine the position of the beginning.
