# Keyboard Shortcuts

MagicPlot keyboard shortcuts are almost the same in different operating systems (Windows, Mac OS, Linux). The main difference is in modifier keys used: Ctrl on PC (Windows, Linux) and Command on Mac. Some shortcuts were altered to avoid coincidences with system ones.

## Common shortcuts

| Windows or Linux Key          | Mac OS Key          | Action                      |
|-------------------------------|---------------------|-----------------------------|
| Ctrl+O                        | ⌘ O                 | Open project                |
| Ctrl+S                        | ⌘ S                 | Save project                |
| Ctrl+Shift+S                  | ⌘ ⇧ S               | Save project as             |
| Ctrl+N                        | ⌘ N                 | New project                 |
| Ctrl+I                        | ⌘ I                 | Import table from text file |
| Ctrl+P                        | ⌘ P                 | Preview image               |
| Ctrl+E                        | ⌘ E                 | Export image                |
| Ctrl+U                        | ⌘ U                 | MagicPlot preferences       |
| Ctrl+Q                        | ⌘ Q                 | Quit                        |
| <b>Undo/Redo</b>              |                     |                             |
| Ctrl+Z                        | ⌘ Z                 | Undo                        |
| Ctrl+Shift+Z <b>or</b> Ctrl+Y | ⌘ ⇧ Z <b>or</b> ⌘ Y | Redo                        |
| Ctrl+H                        | ⌘ H                 | Show command history window |
| <b>Clipboard</b>              |                     |                             |
| Ctrl+X                        | ⌘ X                 | Cut                         |
| Ctrl+C                        | ⌘ C                 | Copy                        |
| Ctrl+V                        | ⌘ V                 | Paste                       |
| Ctrl+A                        | ⌘ A                 | Select all                  |

## Table shortcuts

| Windows or Linux Key      | Mac OS Key    | Action                     |
|---------------------------|---------------|----------------------------|
| F2 <b>or</b> Double click | Double click  | Edit cell                  |
| Ctrl+F2                   | ⌘ F2          | Set or edit column formula |
| Ctrl+Enter                | ⌘ Return      | Recalculate column         |
| Ctrl+Drag header          | ⌘ Drag header | Rearrange table columns    |

## Figure, Plot shortcuts

| Windows or Linux Key            | Mac OS Key    | Action                              |
|---------------------------------|---------------|-------------------------------------|
| Alt+Enter                       | ⌘ Return      | Open Plot/Figure properties window  |
| Arrows keys                     | Arrows keys   | Move selected object(s) by 1 pixel  |
| Shift+Arrows keys               | ⇧ Arrows keys | Move selected object(s) by 10 pixel |
| Ctrl+Drag object                | ⌘ Drag object | Turn off dragging objects sticking  |
| Escape                          | Escape        | Clear selection                     |
| <b>Scale Scrolling and Zoom</b> |               |                                     |

| Windows or Linux Key        | Mac OS Key                                     | Action                               |
|-----------------------------|------------------------------------------------|--------------------------------------|
| Scrolling <sup>1)</sup>     | Scrolling                                      | Vertical (Y) scale scrolling         |
| Shift+Scrolling             | ↑ Scrolling <b>or</b> Horizontal scrolling     | Horizontal (X) scale scrolling       |
| Ctrl+Scrolling              | ⌘ Scrolling                                    | Vertical (Y) scale zooming           |
| Ctrl+Shift+Scrolling        | ⌘ ↑ Scrolling <b>or</b> ⌘ Horizontal scrolling | Horizontal (X) scale zooming         |
| Left mouse button+Scrolling | ^ Vertical <b>or</b> Horizontal scrolling      | Proportional (X and Y) scale zooming |

<sup>1)</sup> Scrolling means mouse wheel rotation or touchpad vertical scrolling or scrolling by other human interface device.
